¹ From Ballard, J. K., et al 1971. Critical temperatures for blossom buds. Wash.St. Ag. Ext. Cir. Nos 369-374

² Under very calm conditions the fruit bud temperature can be lower than the air temperature, resulting in injury when recorded temperatures are slightly above the critical level

³ Numbers correspond to bud development stages illustrated in Fruit Bud Development Stages, ISU pub.fact sheet FG 151, F-15-83
