

MRCC Summer Intern

Position: Student Hourly (2 positions)

Salary: \$12/hour 40 hours/week

Availability: May 28, 2012-August 17, 2012

Primary Function of Position: To serve in a support role within the service and research-based environment at the Midwestern Regional Climate Center.

Duties & Responsibilities: This position is designed to expose the intern to the range of activities performed by the MRCC. The intern will assist MRCC scientists with applied research projects and will assist climatologist in responding to data and information requests as needed.

Qualifications: Currently (11-12 school year) enrolled as a sophomore or junior majoring in the atmospheric sciences or related field. A strong interest in climatology preferred. Experience in scripting languages, word processing, and spreadsheet software is desirable. Experience in computer programming and statistical packages are helpful.

Contact Information: Letters and resumes submitted electronically via email must include the applicant's last name as part of the file name. Interested applicants should email cover letter and resume no later than April 25, 2012 to:
